# REPLAY CUPS

**TECH-ENABLED  
SUPER-STACKABLE  
REUSABLE CUPS**

## SERVE SMART STACK SHARP

REPLAY Cups are more than just reusable drinkware—they're designed for the future of events.

With an option for built-in RFID or QR technology, these cups can be linked to cashless payment systems, deposits, and tracking, making transactions faster and more efficient.

The super-nestable shape allows for 38% more compact storage compared to traditional reusable cups, which means fewer crates, faster handling, and more space where it matters.
